

Specification Features

- Material: Full glass tube same as traditional fluorescent tube
- Lumen output : High lumen efficiency >80lm/w
- Led chip: equipped with famous domestic led chip brand Sanan® with SMD solution
- Driver: constant current driver to ensure good performance of luminous flux and long-time lifespan.
- Safer transportation: whole glass tube is covered with milky film to protect it from broken during transportation.
- Both single and double ended installation ways are available.
- Lifespan: 25000 hours
- CE,RoHs appliance.
